I'm interested in helping out

There are many ways you can help at Bledington Community Shop, from an occasional 1-hour serving behind the till to regular shifts making coffee and helping run the place. Or even getting involved in other ways – from social media to gardening to fixing things. We are flexible to help you be part of our local community in the way you want.

I would like to help in a regular shift

I'm happy to volunteer, but I can't commit to a regular shift

I would like to be on call to offer help at peak times / when needed

If you don't wish to work behind the counter, are there other ways you could help?

.....
Is there any other information you feel would be helpful to know about you?

.....
.....
